

Foundation Supporters Club

The 12 Apostles Mountain Bike Classic is a three day staged mountain bike race set to the backdrop of one of the country's most iconic tourism destinations. The event, based in Port Campbell, with routes reaching across the region is designed for serious recreational MTB and road riders. This inaugural event built entirely for the benefit of the local communities will help drive visitation, increase the number of overnight stays and help drive economic impact for the broader business community.

The 12 Apostles MTB Classic will set a new direction for regional events that is "community centred" building the social capital of the region while recognising the important role sporting events play in shaping local communities for a sustainable future. The event itself will develop a number of resources and leave a lasting legacy through improved community connections, service culture and provide a structure in which local communities may respond and act upon opportunities presented.

With plans for more than 500 people being drawn to the event, once it is established a significant opportunity exists for the broader business community and residents alike to become involved and capitalise on this unique community event.

The Foundation Supporters Club has been specifically designed to provide a vehicle for local businesses to get involved and support the event. Foundation Supporters Club packages provide local business with the opportunity to be recognised as official supporters of the event and preferred business partners. Supporter's Packages are now available to local business with significant promotional and direct marketing benefits in return for your support.
